

LIVEPICTURE

The patented LivePicture is a unique combination of innovation, design and greenery. LivePicture is a picture made of high-quality materials, including a powder-coated steel frame and a system of interchangeable plant cassettes. The watering system included in the frame is enough to water the plants for four to six weeks. This innovative system does not require electricity or a pump to provide the right amount of water and nutrients to the plants. Choose different types of plants to experiment artistically with foliage and colour patterns. A custom-designed LivePicture enhances any living, learning or working environment and adds all the positive features of living greenery.

BENEFITS

- Vertical greenery takes up little space
- Improves the indoor climate and air quality
- Helps increase concentration, productivity and general well-being
- Improves the acoustics in a room
- Sound-dampening effects
- Lowers stress levels
