

A close-up photograph of several peace lilies (Spathiphyllum) with their characteristic white spathes and yellowish stamens. The plants are set against a background of lush green leaves. The word "LIVEFEED" is superimposed in a large, white, sans-serif font across the center of the image.

LIVEFEED

LIVEFEED

NPK stands for the nutrient elements in the LiveFeed fertiliser: Nitrogen (N), Phosphorus (P) and Potassium (K) are essential nutrients for plants. Nitrogen is required for plant growth. Phosphorus ensures the development of roots, buds and flowers. Potassium adds strength, resilience and transfers water and carbohydrates.

LiveFeed is an NPK fertiliser and appropriate for the following products: manually water-filled LivePanel, LivePanel PACK, LivePicture, LivePicture GO and LiveDivider PLUS. LiveFeed consists of liquid plant nutrition, keeping plants strong and healthy with essential nutrients and a rich mixture of trace minerals. LiveFeed ensures plants grow and bloom beautifully.

LIVEFEED SPECIFICATIONS

Product	Description
LiveFeed - Hard Water	NPK fertiliser solution, developed for water with average CaCO3 hardness of: 100-350 mg/l, dH: 5.6-19.7, fH: 10-35, eH: 6.9-24.5.
LiveFeed - Soft Water	NPK fertiliser solution, developed for water with average CaCO3 hardness of: 0-150 mg/l, dH: 0-8.4, fH: 0-15, eH: 0-10.5.
